Now two players can go Head-to-Head, wireless! With Acclaim’s Double Player™ System, you and a friend will really get the power to move—especially when playing games with simultaneous, Head-to-Head, 2 player action, like Acclaim’s WWF WrestleMania™ or Double Dragon II: The Revenge™.

The Double Player System’s score-raising features include Twin Turbo Rapid-Fire for both A and B buttons, Slow Motion, and Pinpoint accuracy from up to 30’ away. Get the power to move from Acclaim!
Your Nintendo® Double Player Wireless Head-to-Head System from Acclaim includes the following:

1. Infrared receiver with dual adapter plugs
2. Double Player wireless remote controllers

Diagram “A,” below, shows you the components and gameplay features of your Double Player System.

- Dual Patch Cord
- Adapter Plug
- Slow Motion Button
- Twin Turbo Rapid-Fire Buttons
- 1-2-OFF Switch
- Start
- Select
- A Button
- B Button
- 8-Way Control Pad
1. Make sure the 1•2•OFF switch on your Double Player Controller is in the OFF position.

2. Carefully press down on the two battery covers and slide them forward to remove.

3. Install 4 new “AAA” alkaline batteries, two on each side, as shown in Diagram “B.”

4. Replace Battery Covers.

Diagram “B”
1. Make sure the power switch is OFF on your Nintendo® Control Deck.

2. Your Infrared Receiver comes equipped with a dual patch cord which has two Adapter Plugs. You will notice that a white line runs along one of the cords. Insert the Adapter Plug attached to the white cord into controller socket #1 of your Nintendo® Control Deck. Insert the other Adapter Plug into controller socket #2 (See Diagram “C”, below).

3. Place your Infrared Receiver on top of your Nintendo® Control Deck or TV, facing towards you, as shown in Diagram “D” below. Be sure there is a clear, unobstructed path from your Double Player Controllers to the Infrared Receiver, for pinpoint accuracy up to 30 feet away.
**ONE PLAYER GAMES**

1. Make sure the power switch is OFF on your Nintendo® Control Deck.

2. Insert your Nintendo® game pak as described in your Nintendo® instruction manual, then turn the Control Deck power ON.

3. Next, to power up your Double Player Controller: slide the 1•2-OFF switch of either Double Player Controller to the 1 position. Now you are ready to play a one player game. Always make sure the 1•2-OFF switch on the other Double Player Controller is in the OFF position.

**TWO PLAYER GAMES**

Your Double Player System allows you and a friend to enjoy the convenience and excitement of wireless game play.

1. To play TWO PLAYER ALTERNATING games like Acclaim's Tiger-Heli, you can use 1 or 2 Double Player Controllers:

   A. USING 1 CONTROLLER: Slide the 1•2-OFF switch to the 1 position until player #1's game turn ends. Then slide the switch to the 2 position for player #2's turn. Continue to slide the switch from 1 to 2 for the duration of the game.

   B. USING 2 CONTROLLERS: Slide the 1•2-OFF switch on one Double Player Controller to the 1 position and the 1•2-OFF switch on the other Controller to the 2 position. The player with the 1 position will always enter game select information, start the action, and go first in game play. Do not change the position of the 1•2-OFF switches for the duration of the game. Now both players can play at the same time without interfering with each others game play.

   **NOTE:** When playing two player games, if both Controllers are in the 1 position or both are in the 2 position, game play will be disrupted.

2. To play TWO PLAYER HEAD-TO-HEAD games (simultaneous play), slide the 1•2-OFF switch on one Double Player Controller to the 1 position and the 1•2-OFF switch on the other Controller to the 2 position. The player with the 1 position will always enter game select information and start the action. Do not change the position of the 1•2-OFF switches for the duration of the game. Now both players can play at the same time without interfering with each others game play.

   **NOTE:** When playing two player games, if both Controllers are in the 1 position or both are in the 2 position, game play will be disrupted.
SPECIAL FEATURES

TWIN TURBO RAPID-FIRE FOR BOTH A AND B BUTTONS
For super high scores, you can separately activate rapid-fire for both A and B BUTTONS. To do so, press and lock the TURBO BUTTON of the corresponding A and/or B BUTTON. To shut off the rapid-fire mode, press the corresponding TURBO BUTTON again, unlocking it.

NOTE: In jumping games, like Acclaim’s Wizards and Warriors™ and IronSword™, the jump button should be kept in the normal play position for best jumping results. The other button can be set to the rapid-fire mode for lightning quick firepower. Some games may not operate in the rapid-fire mode and should be played in the normal play mode only.

SLOW MOTION
Press and lock the SLOW MOTION BUTTON down to activate slow motion. This feature helps you get through difficult parts of a game when the action is fast, wild and furious. To resume play at normal speed, press the SLOW MOTION BUTTON again, unlocking it. Some games may not operate in the slow motion mode and should be played at normal speed only.

NOTE: Some early Nintendo® games may not work with the advanced infrared technology featured in your Double Player Controllers. If so, use your standard Nintendo® controllers to play these games.

CARING FOR YOUR DOUBLE PLAYER SYSTEM

1. If either of your Double Player Controllers begins to malfunction, check that the batteries are installed properly and/or replace batteries. Also make sure the Infrared Receiver is properly connected to the Control Deck and the 1*2*OFF switch is properly adjusted for the type of game you are playing.

2. Do not expose your Double Player Controllers or Infrared Receiver to extreme heat or humidity.

3. Do not drop or throw your Double Player Controllers or Infrared Receiver.

4. Do not spill liquids on your Double Player Controllers or Infrared Receiver.

5. If your Double Player Controllers or Infrared Receiver become dirty, clean with a dry cloth.

6. If you are not going to play with your Double Player Controllers for an extended period of time, remove the batteries.
